**COMMONWEALTH OF VIRGINIA AWARDS LEVARE STATEWIDE IMPLEMENTATION OF
CENTER COURT™ FOR AUTOMATED JUDICIAL CASE SCHEDULING AND CALENDARING**
Web-based Calendaring and Scheduling Software for the Judicial Courts

Dayton, New Jersey: September 21, 2005

As a leading provider of judicial applications and services, Levare announced today the award of a statewide contract with the Commonwealth of Virginia for Center Court™. Levare will implement a customized version of its software across all Circuit Courts throughout Virginia over an 18 month period. Phase two of the implementation may include the rollout of Center Court™ to the General District Courts and the Juvenile and Domestic Relations Courts.

Providing an exclusive automated judicial calendaring and scheduling solution, Center Court™ enhances the process of scheduling any event for a Judge, location and court. With the customized integration to the existing mainframe Case Management System operating in a Linux/DB2 environment, Center Court™ will provide a central repository for all scheduled events for the Virginia Circuit Courts.

Center Court™ is flexible, web-based software that provides an easy-to-use method for scheduling hearings, motions, trials and judicial events. It can effectively manage the most strenuous docket for any criminal, civil, family, juvenile or traffic court. It's rich feature-set includes a master calendar design, multiple calendar views, available time slot search, calendar blocking, conflict resolution, email notification of events, rescheduling or canceling of events, user defined fields, calendar set-up wizard, customizable case-number format, role-based security and customizable calendar reports with export facility to Excel, Word or PDF. The Calendar *DASHBOARD* provides quick and easy access to all scheduled events and alerts. Our latest version includes the ability to download a Judges calendar to a PDA device and provide a view of any calendar via the Internet for the public. Center Court™ can streamline the scheduling process, increase court staff productivity and keep all calendars up-to-date.

Center Court™ is available in a Windows or Linux environment and can be easily integrated into any E-Government portal or case management system. Databases supported include Oracle, SQL Server, MySQL, Postgres and DB2. Plumtree version 5.0 is supported. Center Court™ is iCalendar standard ready. Personalized training, installation and implementation services are available.

About Levare

Levare is a privately held, New Jersey based company focused on delivering technology solutions to its valued clientele.
