

EASE

SUPPORT YOUR CLIENTS WITH EASE!

EASE is the most advanced client data management and information system on the market. Our software solution facilitates the process of intake, eligibility, enrollment, client profile creation and program services tracking. Managing appointments with counselors and case managers is as easy as 1-2-3! Allow remote access for outside service providers and health service agencies. Print standard or ad-hoc reports!

EASE is modular, browser-based software that can be customized to meet your specific needs. Our turn-key solution can be installed at your facility or provided as a hosted service. Call for a product demonstration today!
