**For Immediate Release**

**MAJOR FINANCIAL SERVICES FIRM CONTRACTS WITH LEVARE FOR CUSTOMIZED OPPORTUNITY TRACKING DATABASE IN ORACLE FOR VENTURE CAPITAL ORGANIZATIONS AND PORTFOLIO COMPANIES**

**Dayton, New Jersey: October 1, 2004**

As a leading provider of custom, browser-based database solutions, Levare announced today the agreement to provide custom database software to a major West-Coast based financial services organization. This newly created enterprise software system will assist with improved tracking of venture capital firm and portfolio company information.

Completely built in a Linux, JAVA and Oracle 9i environment with integration to the existing Customer Relationship Management system, the primary purpose of this new custom database system is to provide the best possible venture capital firm data for improved investment decisions. A more efficient system will enhance partner productivity and provide improved data management, speed and efficiency.

**About Levare**

Levare is a privately held, New Jersey based company focused on delivering technology solutions to its valued clientele in the financial services, healthcare, manufacturing and government arena. We leverage our consulting expertise to define solutions that provide business benefit. Our suite of specialized solutions includes inventory control, order management, executive decision support, client/patient data management, web-based calendaring and custom database development.
