- Consumer goods
- Automotive Parts and Assemblies
- Import/Export
- Mail Order

Dashboard

The dashboard provides quick and easy access to your entire operation. Daily orders and shipments are right at your fingertips! Know when a product falls below acceptable inventory levels! View critical alerts! Manage your to-do list! Gain access to your saved quicklinks! Drive your operation when and where you need it!

The screenshot shows the iCORE dashboard with several data tables and navigation elements. A red callout box points to the 'My Work Items' sidebar, stating 'Track your to-do list'. Another red callout box points to the 'Alerts' section, stating 'Alerts and email notifications to key personnel and customers'. A third red callout box points to the main data tables, stating 'The Dashboard provides all critical order, customer and inventory data'.

Order #	Customer Name	Phone Number	Delivery Date	Status	Cost
